## **Oakland Animal Hospital's Food for Fido Program Prepares to Feed Pets of Meals on Wheels Seniors**

**Oakland, NJ** – Oakland Animal Hospital's Food for Fido program has raised donations of food, toys and supplies estimating approximately 2000 lbs for the benefit of the pets living with Meals on Wheels recipients in Bergen and Passaic counties. Oakland Animal Hospital is celebrating the strong Human-Animal Bond and the special significance the pets have in the lives of the seniors who can't get out to supply and feed themselves.

This story of community goes beyond the efforts of just Oakland Animal Hospital to that of local groomers and pet shops which served as additional collection locations and the local ShopRite which has donated bags and boxes for sorting and distribution of the "goodies."

Beginning Wednesday (12-20) Oakland Animal Hospital will be sorting and organizing all of the donations and preparing them for transport to the two Meals on Wheels programs who will then distribute the holiday treats to the approximately 175 Meals recipients who have pets.

For over 30 years Oakland Animal Hospital has been providing the highest quality veterinary medical, surgical and dental care including preventive and emergency care services in a convenient, professional atmosphere. The Oakland Animal Hospital is located at 86 Ramapo Valley Rd (Route 202), Oakland just 1/4 mile south of Long Hill Mall.
